by Dr. Aparna Zama, Undergraduate Program Director & Dr. Kathy Manger, Program Coordinator

The Fall 2019 Schedule of Classes is now live, and registration begins April 7 (nbregistrar.rutgers.edu/undergrad/f19prereg.htm). Listed below are a few important points that undergraduate students should know before registering for 11:067 courses.

Working with Animals? Go to the Animal Science Undergraduate Program homepage and click on the “Working with Animals” link, then follow the directions. Note: Do this now because you will be deregistered from your course if you do not have medical clearance by Aug. 20.

Fall 2019 Practicums. Obtain an SPN from Joanne Powell (jopowell@sebs.rutgers.edu) to register for Cattle Practicum 201. To register for all other practicums, register for whatever section fits in your schedule; no SPNs needed!

Other EBE courses. SPNs may be obtained from Dr. Zama for both Studies in Animal Science 411 (for faculty-supervised projects that are not hypothesis-driven research) and Teaching in Animal Science 414 (for undergrad teaching assistants). To sign up for Research in Animal Science 493, contact the professor directly for an SPN. For policies re: our Experience-based Education (EBE) courses: animalsciences.rutgers.edu/undergraduate/ug-ebe.html

First-Year Students: Declare your major on the MyMajor portal by April 5. Meet with your academic advisor by April 15.

Upperclass Students: Find your current academic advisor on animalsciences.rutgers.edu/undergraduate/ug-advisers.html or on the MyMajor portal.
