Bingo Game

- 20 items for identification, one bonus question
- A Bingo Sheet to give answers, color coded to allow selection of one color for each item
- Write the correct color in each box for your answer (red, green, blue, yellow)
- If you get 4 or 5 colors in a row (4 if across or diagonal, 5 if up or down), depending on direction, and solve the bonus problem, you will win a prize
- Please see the Bingo form
- If you solve the problem, please contact your 4-H leader to receive your prize (limited number available)
