COURSE DESCRIPTION:

Animal nutrition is designed to provide the student with a basic background of the variety of factors that must be considered when feeding any animal. Regardless of whether the student is feeding a cow, horse, dog, elephant or even a snake, there is a set of basic questions that need to be answered. This course will spend a large amount of time discussing the domestic species because the most is known about these animals, but it is important to think about how that information applies more broadly.

The course is divided into four sections. The first section deals with anatomy and physiology, the second section will cover metabolism and biochemistry, the third section will focus on how to feed specific physiological states and the fourth section will focus on how to feed specific species.

PROGRAM LEARNING GOALS:

<https://animalsciences.rutgers.edu/undergraduate/mission.htm>

Students will:

- Critically evaluate different methods and models that are used to determine feed quality (PLG 2)
 - o Assessment: Quizzes, in-class assignments, and exams
- Develop an understanding of the various digestive processes and strategies used by different species (PLG 3)
 - o Assessment: Quizzes, in-class assignments, and exams
- Gain an appreciation of the major nutrients and how they are utilized by various types of animals (PLG 2)
 - o Assessment: Quizzes, in-class assignments, and exams
- Evaluate various types of diets that are used during and animal's different life stages and production as well as the appropriate diets that are fed to the major animal species (PLGs 1 and 3)
 - o Assessment: Quizzes, in-class assignments, and exams

ASSIGNMENTS & GRADING:

Grading will be assigned based on the results of the following:

- | | |
|--|-----------|
| • Four 30-minute quizzes (15 points each – 60 points total)
(Quizzes will be on canvas) | 14% total |
| • Eight in-class assignments (10 points – 70 points total)
(Lowest grade will be dropped) | 16% total |
| • Four exams (100 points- 300 points total)
(Lowest exam grade will be dropped) | 70% total |

There are NO make - up exams, assignments, or quizzes.

There will be 4 exams throughout the course. The final exam will not be cumulative. Your lowest exam grade will be dropped. You have already received the times and dates of the exams so you can schedule your activities accordingly. No excuses will be accepted after the exam dates have passed. However, if you have a legitimate medical excuse for missing an exam or a religious observation/holiday, please contact the Dean of Students (<https://studentsupport.rutgers.edu/services/absence-and-verification-notices>) as soon as possible for a letter of excusal.

There will be 4 quizzes given once per exam period. The quizzes will be available on the Canvas site at 12 noon after class and you will have 24 hours to complete the quiz. Once you access the quiz, it will be available for 30 minutes. The quizzes will cover the material for the section to prepare you for the exam. There are NO make-up quizzes.

There will be 8 in class assignments, 2 per section of the course. The lowest grade will be dropped. Please bring a sheet of paper with you to class to submit your assignment.

The maximum number of points that can be accumulated is 430. Your grade will be based on the accumulation of total points from the above activities: (3 exams, 4 quizzes and 7 in-class assignments).

- A = 100-90.0%
- B+ = 89.9-85.0%
- B = 84.9-80.0%
- C+ = 79.9-75.0%
- C = 74.9-70.0%
- D = 69.9-60.0%
- F = 59.9-0%

ACADEMIC INTEGRITY

The university's policy on Academic Integrity is available at <http://academicintegrity.rutgers.edu/academic-integrity-policy>. The principles of academic integrity require that a student:

- properly acknowledge and cite all use of the ideas, results, or words of others.
- properly acknowledge all contributors to a given piece of work.
- make sure that all work submitted as his or her own in a course or other academic activity is produced without the aid of impermissible materials or impermissible collaboration.
- obtain all data or results by ethical means and report them accurately without suppressing any results inconsistent with his or her interpretation or conclusions.
- treat all other students in an ethical manner, respecting their integrity and right to pursue their educational goals without interference. This requires that a student neither facilitate academic dishonesty by others nor obstruct their academic progress.
- uphold the canons of the ethical or professional code of the profession for which he or she is preparing.

Adherence to these principles is necessary in order to ensure that

- everyone is given proper credit for his or her ideas, words, results, and other scholarly accomplishments.
- all student work is fairly evaluated and no student has an inappropriate advantage over others.
- the academic and ethical development of all students is fostered.
- the reputation of the University for integrity in its teaching, research, and scholarship is maintained and enhanced.

Failure to uphold these principles of academic integrity threatens both the reputation of the University and the value of the degrees awarded to its students. Every member of the University community therefore bears a responsibility for ensuring that the highest standards of academic integrity are upheld.

STUDENT CODE OF CONDUCT
